

THE YOUNG GODS

'KNOCK ON WOOD - THE ACOUSTIC SESSIONS'

VINYL REISSUE [REMASTERED]

OUT 21.02.2025

Swiss rock band, The Young Gods announce the vinyl reissue of their acclaimed acoustic studio album, 'Knock on Wood'. Originally released in 2008, this album presents a captivating departure from the band's signature electronic sound. The reissue, remastered from the original 96kHz/24-bit files, will be available on vinyl on 21st February 2025 via Two Gentlemen.

With 'Knock on Wood - The Acoustic Sessions', the band offers acoustic renditions of some of their most beloved tracks, including «Gasoline Man» and «Skinflowers», alongside stunning reinterpretations of classics by other artists. The tracklist features "Ghost Rider" by Suicide, "Freedom" by Richie Havens.

This unique project was recorded with acoustic guitars and percussions, bringing a raw and intimate energy to the music. For this occasion, The Young Gods expanded their lineup, welcoming Geneva-based guitarist Vincent Hänni, whose contributions added depth and texture to the acoustic arrangements. Hänni's collaboration extended beyond the project, as he remained with the band until 2011.

Now, with remastered audio sourced from the original high-resolution 96kHz/24-bit files, fans can experience these performances in unparalleled clarity. The rich sound quality, combined with the immersive warmth of vinyl, makes this reissue a must-have for collectors and newcomers alike. Rediscover the acoustic brilliance of The Young Gods and celebrate the artistry of this timeless album.
